EDUCATION

Nazilli Police Vocational School, Turkey
Graduated: 2006

KEUDA Vocational College, Kerava, Finland
Vocational Qualification in Information and
Communications Technology (Software Developer)
Graduated: 2025

SKILLS

Software Development

- Programming Languages:** Java, Dart, Python, C#, JavaScript, SQL
- Mobile Application Development:** Flutter, Firebase (Firestore, Authentication), REST APIs, Responsive Design
- Web Technologies:** HTML5, CSS3, JavaScript, Basic knowledge of React, JSP & Servlets
- Frameworks:** Spring Framework (Spring Boot, Spring MVC), Hibernate

FULL STACK DEVELOPER (JAVA & FLUTTER) | WEB & MOBILE APPLICATIONS

Software developer with strong hands-on experience in Java and Flutter technologies, and a solid background in web and mobile application development. I have developed cross-platform mobile applications using Flutter and Firebase, and actively contributed to user interface implementation and application logic design. I am seeking an opportunity to work within a development team where I can deliver functional solutions, further develop my skills, and contribute to production-level projects.

EXPERIENCE

Flutter Developer Intern

[Roseance Oy](#) – Remote | Oct 2024 – Dec 2024

- Developed cross-platform mobile applications using **Flutter and Firebase (Authentication, Firestore)**.
- Implemented UI components and contributed to application logic.
- Conducted market research for beauty salons in the U.S.
- Collaborated remotely using Slack and GitHub.
- Performed basic manual testing and debugging during development.

Web Developer Intern

[Sisustuskliniikka.fi](#) – Kerava | Feb 2024 – May 2024

- Designed and developed a business website using **WordPress**.
- Customized themes, created pages, and integrated essential plugins.
- Gained practical experience in client communication and frontend structure.

Java Mentor

[Wisequarter](#) – Remote | 2022

- Mentored students in **Java programming** during a 75-hour intensive bootcamp.
- Supported learners with core Java, OOP, and real-world projects.

Full Stack Java Developer Trainee

[Techproed](#) – Online | 2021

- Completed a comprehensive course on **Full Stack Java Development**.
- Gained hands-on experience with Spring, Hibernate, RESTful APIs, and frontend tools.
- Built and deployed sample full stack applications.

Police Officer

Turkish National Police | 2006 – 2016

- Teamwork, responsibility, crisis management, structured reporting

Web Development & Frontend

- **Frontend Development:** HTML, CSS, Bootstrap; responsive and accessible user interfaces
- **WordPress (Technical Use):** Theme customization, site structure design, plugin integration
- **Multilingual UI Implementation:** Finnish, English, Turkish
- **Basic Technical SEO:** Search-engine-friendly structure and on-page technical optimization
- **AI Tools in Development Support:** Ideation, UI drafts, and development support workflows

Databases & Tools

- **Databases:** MySQL, Firestore, SQLite
- **Tools:** Git, GitHub, VS Code, IntelliJ IDEA, Trello, Slack, Figma
- **Work Practices:** Version control, Agile development, API integration, clear and maintainable documentation
- **Architectural Knowledge:** Clean Architecture, MVVM, MVC

LANGUAGE SKILLS

English: B2 – Comfortable with technical discussions and documentation

Finnish: B2 – Able to communicate in daily and professional contexts.

Turkish: Native

PROJECTS

Zylnnova | React, Vite, Tailwind CSS, HTML, CSS
Founder & Developer – Kerava, Finland | 2024 – Present
zylnnova.com

- *Founded and developed Zylnnova, a personal digital brand and platform used to showcase software projects, portfolio content, and future startup concepts.*
- *Designed and implemented the website architecture and user interface using React, Vite, Tailwind CSS, HTML, and CSS.*
- *Managed all site content, including multilingual presentations (Finnish, English, Turkish), project descriptions, and blog- and news-style updates.*
- *Ensured a search-engine-friendly structure and implemented basic SEO best practices.*
- *Utilized AI tools to support ideation, content drafting, and UX design processes.*
- *Used Zylnnova as an experimental platform for developing and validating digital service and e-commerce concepts.*

Multilingual Todo App | Flutter, Firebase, MVVM

- *Cross-platform task management app with support for Turkish, English, and Finnish.*
- *Features include user authentication and real-time data sync with Firestore.*
- *Built using MVVM architecture and modular code structure.*

Movie Explorer | Flutter, TMDB API

- *Multilingual movie app using The Movie Database API.*
- *Role: Project manager and developer in a collaborative team.*
- *Integrated dynamic UI and API-driven data fetching.*

Zikirmatik App | Flutter

- *Simple digital counter app inspired by traditional tasbeeh tools.*
- *Includes vibration feedback, reset, and increment functionalities.*

Classic Game Clones | JavaScript, Kaboom.js

- *Created browser-based clones of Super Mario Bros, Space Invaders, and Zelda.*
- *Focused on game physics, sprite animations, and user interaction.*

Portfolio Website | HTML, CSS, Bootstrap

- *Personal portfolio website built with modern frontend technologies.*
- *Fully responsive layout and project showcase.*
- *Hosted on GitHub Pages: portfolio.zylnnova.com*
